

Totterdell Park Enhancement Place Plan

Engagement Summary | Online Survey, 4-18 May 2026

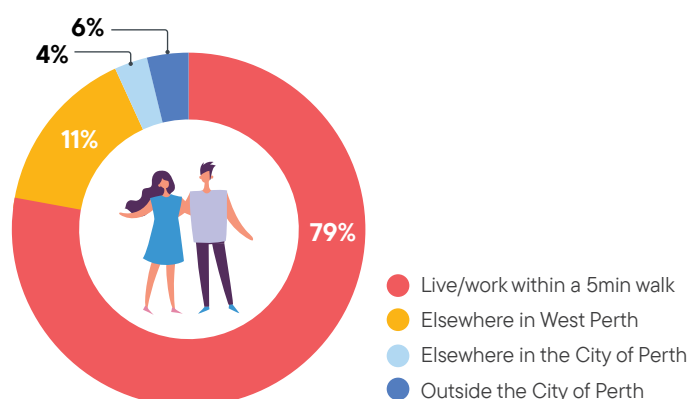

An online survey was undertaken from 4-18 May 2026 to seek community feedback on the Totterdell Park Enhancement Place Plan. A total of **76 survey responses** were received, with a further 11 community members attending pop-up engagement sessions held in the park on 9 and 13 May 2026 to provide feedback in person.

The feedback received will help inform the next phase of the project, including development of the concept design.

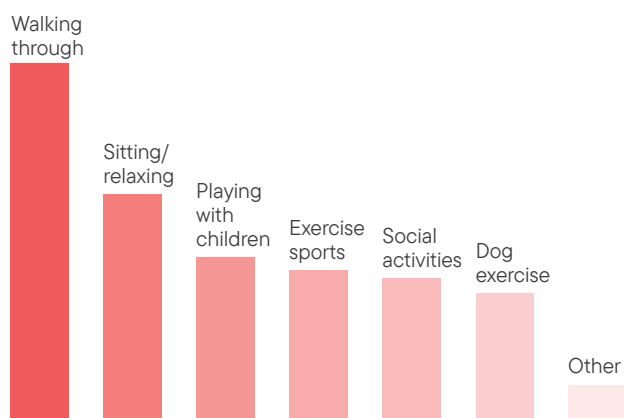

Who did we hear from?

Where do respondents live/work?

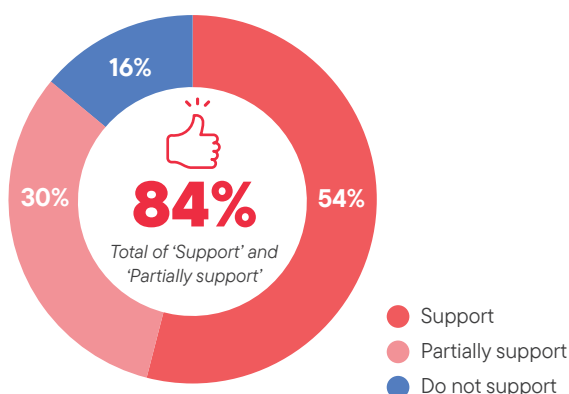

Main reasons for visiting the park?

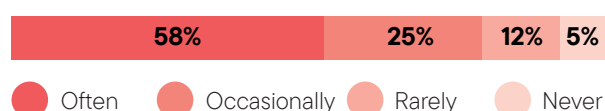

What did we hear?

Do you support the proposed spatial arrangement in Place Plan?

How often do respondents visit the park?

16% of respondents (12 responses) did not support the proposed spatial arrangement. Concerns focused on tree retention, landscaping and open space for dogs, with feedback suggesting some misunderstandings about the Place Plan and proposed upgrades.

What did we hear?

Top priorities for new elements

- ① Shade shelter
- ② Exercise equipment
- ③ Public art and cultural heritage interpretation
- ④ BBQs

TOP 5 preferred types of play

- ① Climbing & balancing
- ② Swinging
- ③ Sliding
- ④ Bouncing
- ⑤ Sensory play

Key themes from feedback:

Retain green, calm character

Support for new elements

Support for playground upgrade

Popular open space for dogs

Written Comments

Great idea to add new pathways, and seating nodes. Will be good to add more exercise options.

Please keep the redesign simple and in keeping with the current lush green vibe of the place.

It would be great to have the whole area fenced, for both children and dogs.

I wanted a better play space for my son and amenities so this is great.

Keep it simple this area works great as a lush oasis providing a nice break from the concrete jungle surrounding... don't ruin the space.

I particularly like the retained green space...the improvement of crossings for the road, and the proposed BBQ. My partner and I would like to use the park for social events more so a bbq and improved community spaces for day and night are important. I would also like more native plants in the park to support local insects and animals.

We do need a toilet there as well for the children and if there are going to be amenities like a bbq etc.

The park is beautifully green, with large mature trees that support a rich bird habitat. In my view, these trees are a key asset and should be preserved.

Definitely still require areas for dogs - especially off lead areas - as currently there are none around apart from this.

Better zoning, although play area closer to main road. BBQs would be good. Could be a nice space to sit and read.

love it! the playground really needs an upgrade, and things that can be used by older children (currently this playground, like so many others, is useful only to under 5 year olds)

I like how the park is at present, I just love the trees, birds and open grass areas....its truly a blessing to live right beside the park.

Looks good. Mostly happy with it. Maintain all trees, plants and grass areas. I quite like that it's a quiet park with people and their dogs.
