

# FENCED OFF-LEAD DOG PARK STUDY

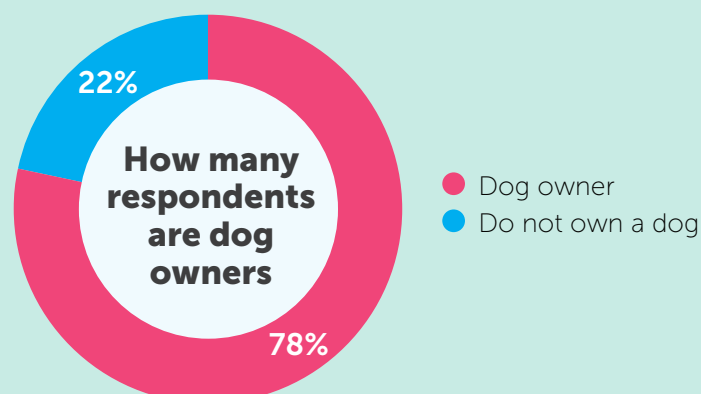

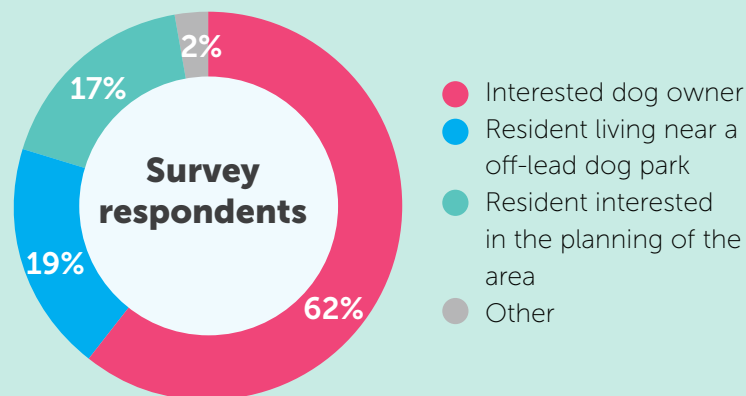

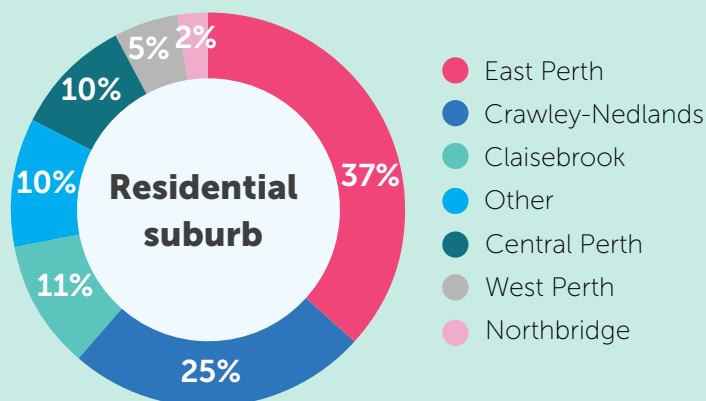

## November 2021 Survey Results

A survey was undertaken to better understand where and how people like to exercise their dogs. We asked the community for feedback about existing dog park at Ozone Reserve, the main features they would like to see at a fenced off-lead dog park and their preferred site from the three potential sites identified within the City.

The results of the survey will help inform the fenced off-lead dog parks investigation and long-term planning.

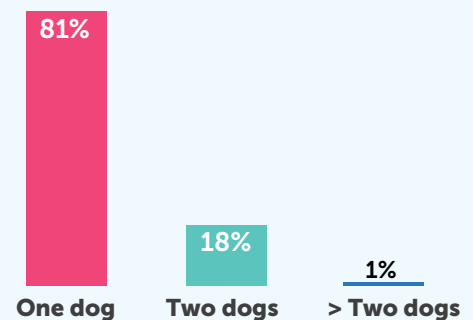

The survey was posted on Engage Perth from 26 October to 9 November 2021 and we received a total of **223 responses**.

### WHO DID WE HEAR FROM

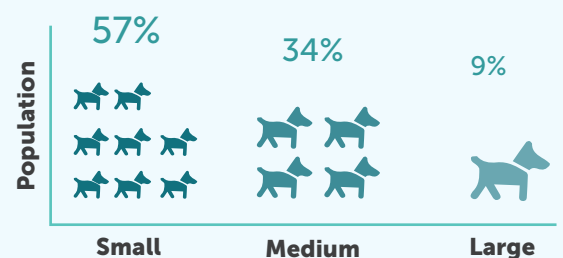

### DOG OWNERSHIP

#### How many dog(s) do you own?

175 responses

#### Dog sizes

209 dogs total

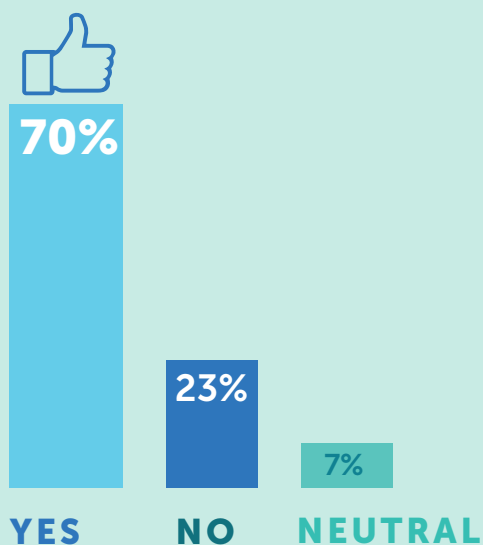

## WHAT PEOPLE LIKE ABOUT EXISTING OZONE RESERVE DOG AGILITY PARK?

- **Enclosed space for dogs to run and socialise off-lead**
- **Good location with connecting paths and within walking distance from home or work**
- **Amenities like water, dog bowl, waste bags and dog agility equipment**
- **Opportunity to socialise with neighbours and park users.**

## CHANGES OR IMPROVEMENTS PEOPLE WOULD LIKE TO SEE AT OZONE RESERVE DOG AGILITY PARK

## SUPPORT FOR NEW FENCED OFF-LEAD DOG PARKS IN GENERAL

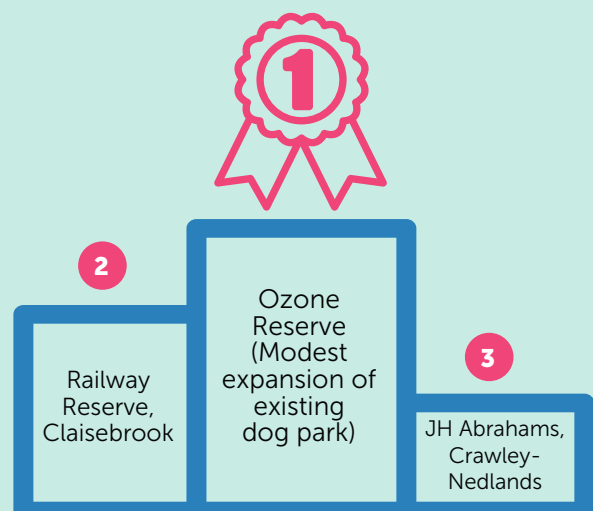

## WHAT PEOPLE WOULD LIKE TO SEE AT A FENCED OFF-LEAD DOG PARK

## PREFERRED SITES (IN RANKING)

A modest expansion of the existing fenced off-lead dog park at Ozone Reserve received the most community support. The site at Railway Reserve was the next most popular option. The site at JH Abrahams was the least supported option. 22% did not agree with any of the options. The preferred sites are subject to further investigation prior to finalisation.

Thank you for your participation. Your input and feedback helped to develop the Fenced Off-Lead Dog Park Report which will be presented to Council in December 2021.
