

Enjoyment of Totterdell Park

December 2021 Survey Results

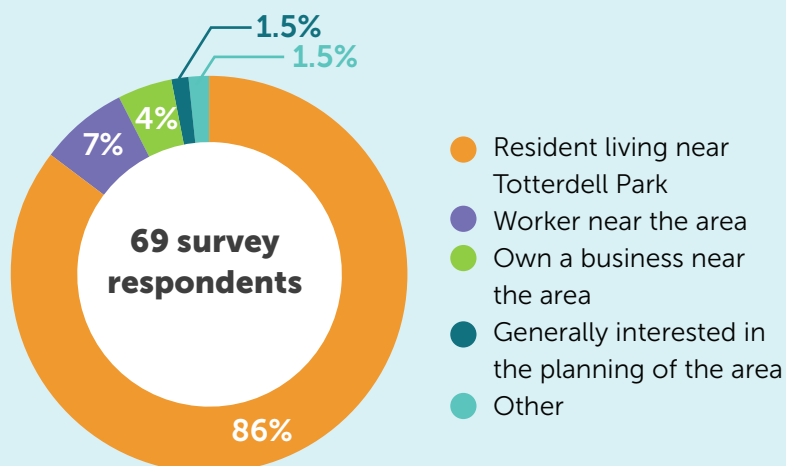

A survey was undertaken to better understand how and when people use Totterdell Park. We asked the community for feedback about their overall perception of the park, what they liked about it and features that would improve their enjoyment of the space.

The survey was posted on Engage Perth from 1 to 22 December 2021. Approximately 500 letters were hand delivered to properties in the immediate area, advising them of the survey and inviting them to take part. A total of **69 responses** were received.

5

Meets my recreational needs & enjoyment of open space

Tell us more about Totterdell Park...

Lovely to have this serene little pocket of green and shade in the city.

Totterdell Park needs community events to attract people to the area. It is very inactivated and stale.

Enhance its usability but basically leave it.

New play equipment would be great.

I absolutely love Totterdell Park! I live in the apartments next door and its beautiful all year round.
