

Urban Greening Strategy

JUNE 2023 SURVEY RESULTS

An online survey was launched on 15 June 2023 and made available via the City's online platform, Engage Perth until 30 June 2023. The intent of the survey was to capture community feedback and ideas on the draft Urban Greening Strategy. A total number of **80** survey responses were received. The Engage Perth Platform captured a total of **396** visits.

WHO DID WE HEAR FROM

WHAT DID WE HEAR

96%

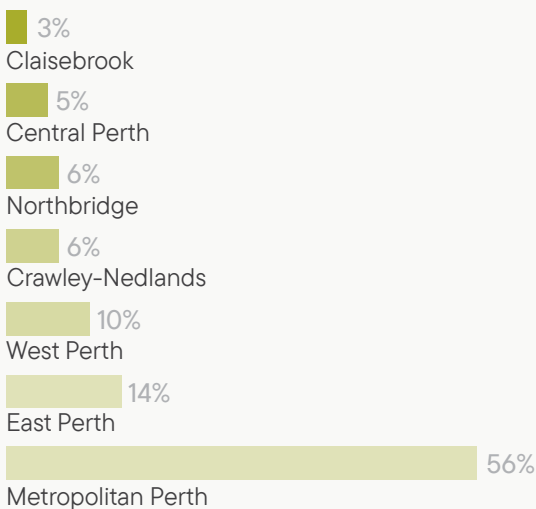

supported the City's commitment to Urban Greening

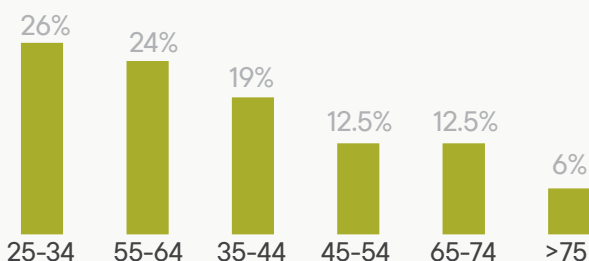

68%

believed that all seven benefits of urban greening were equally important

RESIDENTS

AGE BREAKDOWN

Improved physical health

Enhance mental wellbeing

Climate change adaption

Improved water management

Enhanced biodiversity

Acknowledgement of history and culture

Stronger economy

WHAT DID WE HEAR

The Strategy's Key Moves were ranked in the following order of importance:

-  1 Creating a greener street network
-  2 Enhancing our green open space
-  3 Making the blue-green connection
-  4 Greening buildings
-  5 Setting targets
-  6 Greening together

Work with the new buildings to add greenery to each block built on.

More, more and more, please.

Faster actions and increased speed of delivery.

Regular communication of plans, progress, challenges, and where we can help.

An emphasis on local native plants. This has a much bigger impact on supporting wildlife.

Hold educational planting times, education and participation = success.

Future construction must take biodiversity and green infrastructure in mind.
